

# How to Use the Toilet Visual Routine

tape the routine to the bathroom wall near the toilet at your child's eye level where your child can easily see it

1

Point to the first photo while saying: "First pull down pants". Then wait until child does the step.

Once child has completed the step you might say: "pull down pants is finished, what's next? Then you must point to the next step

2

Point to the next photo while saying: "go to bathroom". Then wait until child does the step.

Once child has completed the step you might say: "go to bathroom is finished, what's next? Then you must point to the next step

★★ Repeat the same procedure with each step until finishing all the steps of the routine. Then you might say: "going to bathroom is finished"  
Once the routine is finished your child can move on and do the next activity.
